Curtis Room

# Communicate in 9 global languages

**A surprising result:  
German communication science confirms the Enneagram!**

ProFIEL® - System

For better understanding in Business  
and everywhere!

## Oriental philosophy meets German science

Combining the German Psychology of Differential Communication by Professor Schulz von Thun (University in Hamburg) with the international Enneagram reveals new aspects of both models. In result: the Enneagram can be turned upside down, so that the gut center is below both head and heart centers, instead of being above, just as it is in the physical body. Instead of a threatening hole at the bottom, there is now an inspiring opening towards what lies above, where the highest inspiration sits, between the 4 and the 5. This is where divine light can enter, so that it may be manifested on earth. A special program called ProFIEL® was born out of this knowledge. It consists of a seminar, some coaching and a final evaluation. Two independent studies confirmed, that participants gain some 25 % more satisfaction and performance in business. Within a few months 25 % more power in difficult business relationships is possible, with a lower expenditure of time and money. If you would like to hear more about this effective connection, you are heartily invited to come to the
